

# PRESENT

**Job Title:** Magento Developer  
**Reporting to:** Creative Director

Location: London

Present Agency is a creative marketing company founded in 2017, delivering a diverse range of services, from press communication to eCommerce management. We are seeking a self-motivated and experienced Magento Developer to join our team. As a developer, you will help the team construct websites for our eCommerce channels, from conception to execution. Working directly with the Creative Director, the ideal candidate is a driven individual with strong analytic skills and the ability to perform under pressure.

## **You:**

- Previous experience in developing eCommerce websites on Magento Version 2 (frontend, backend and module development).
- Ready to jump in the deep end and take ownership of the successful completion of magento based projects.
- In-depth understanding of modern front-end development practices and responsive design
- You will have an appreciation of UX, industry best practices, and accessibility.
- Highly organised with solid experience in project management and planning.
- Experience in specing non-technical briefs and spotting any challenges before a project begins.
- Able to work on multiple projects at the same time.

## **Responsibilities:**

- Managing the development and deployment of all Magento based projects end-to-end.
- Working closely with the Creative Director and eCommerce team to bring ideas from concept through to reality.
- Developing high quality code, with an eye on re-use, performance and deploy-ability.
- Working collaboratively within a digital team, internal and external, demonstrating an ability to assist others in your team when necessary.
- Peer Review code created by other team members.

## **Requirements:**

- At least 2 years previous experience working with Magneto with hands on experience of Magento 2.
- Extensive working knowledge of HTML, CSS, Less, JavaScript, JQuery, PHP, Magento layout XML, MySQL, and Magento API.
- Knowledge of Google Tag Manager.
- Strong understanding of Magento 2 Theme structure and fallback.
- Ability to work to W3C standards is essential and all websites must be fully optimised for search engines such as Google and Bing.
- Ability to write short but descriptive code comments.
- Good time management skills and the ability to work well under pressure.

# PRESENT

- Good interpersonal skills and the ability to liaise effectively with other members of the team and departments.
- Strong analytical and problem-solving skills.

**Permanent position. Competitive salary + bonuses.**

**Applicants are requested to submit a C.V and covering letter outlining why you want to work for Present Agency and what you can bring to the team to [careers@presentagency.com](mailto:careers@presentagency.com)**
